It would look good to all of us if we could work together to achieve that goal. Also your club should start their elections process now as well because there is potential for a leadership conference over the summer or in the fall. It is important for you and the senate to spend time together over the summer on issues and goals. Summer is a good time for fundraisers and food sales. Clubs really need to keep up there energy and get things accomplished, keep pushing forward and inform your advisors on what is going on.**
